### Honoring Mrs. Nelson & Mrs. White

Making a difference for students each day at Rancho Tehama is rewarding. We have a staff that operates efficiently and our students are making educational gains because of this. At our last Corning Elementary School District board meeting we had the opportunity to nominate two people who are essential parts to helping our school run like clock work and make our students feel extra special about their learning and themselves. We nominated Mrs. Brenda Nelson and Ms. Debra White as essential people that make Rancho Tehama Elementary so great!

Many positive comments were made and we would like to share a few:

Brenda Nelson is most concerned with the education and well being of all students. -Debbie Zimmerman

Brenda is very compassionate to all her students. - Debra White

Every day Brenda Nelson creates a healthy environment in her classroom that prepares her students to learn and prosper in the years ahead. -Zachary May

Debbie White constantly exemplifies qualities of kindness to the students and staff alike. - Zachary May

Debbie White is an essential piece because she wears so many hats! -Brenda Nelson

Debbie White is always willing to offer help & a pleasure to work with here at R.T. -Ken Yuers

Because of people like Mrs. Nelson and Ms. White our students show kindness and wear big smiles here at Rancho Tehama. Thank you to all the people in our community who consistently role model positive citizenship for our students.
